Temat: Invitation to Estonia

Dear prof Marciniak,

We had a great honour to listen to you in October when the delegation of Estonian maths teachers came to Poland. As your talk impressed us greatly we would want to invite you to Estonia to talk to the bigger auditorium and more thoroughly about these subjects (curriculum, PISA, olympiads). Would it be possible for you to come to Estonia on the 19. of October (2018)? And if yes, what would your expectations/requirements would be?

Respectfully

Kerli Orav-Puurand (on behalf of the Estonian Mathematics Society)
