Objet : RE: Invitation International Congress on Cognitive sciences and Education/ Paris, UNESCO, 28 and 29 March 2019

Dear Dr Zbigniew Marciniak,

The French Scientific Council of National Education has been set up by the Minister of Education, Jean-Michel Blanquer to inform and accompany education policies : <http://www.education.gouv.fr/cid124957/installation-du-conseil-scientifique-de-l-education-nationale.html>. It is chaired by Stanislas Dehaene, Professor of cognitive sciences at the College de France.

We are organizing an international congress which will be held in Paris at UNESCO headquarters on 28 and 29 March 2019 on the contribution of cognitive sciences to Education.

Stanislas Dehaene would be honoured if you agree to participate and speak on Thursday 28 afternoon within the roundtable on "Mathematics" especially on "How mathematical education improved in Poland". This exact topic can be naturally redefined with you.

You will also shortly receive a formal contract letter and a detailed program.

We look forward to receiving your response.

Yours sincerely,

Anne Valat
