Dear Professor Marciniak,

It has been some time since we had been in touch about your note on the Polish education reforms which you prepared for our colleague Leszek Kasek and which I had the honor to review. I hope that you have been very well since.

I am contacting you today about the upcoming World Education Forum which will take place from 19-22 May in Korea. The Bank had approached Mrs. Kluzik-Rostkowska since there is a keen interest to learn about the lessons of Polish education reform; however, unfortunately, the Minister will not be able to attend the event and contribute to the session on ‘Quality Primary and Secondary Education: An Increased Focus on Learning’. I would like to inquire with you informally if you would be interested in sharing the Polish experience at this high level forum. The Education Minister of Jordan and the Vice Minister of Vietnam are already confirmed for the above mentioned session.

I will also let the Polish MoNE know that we have approached you about this option. It would be wonderful if you could join the event. Please kindly let us know at your earliest convenience if this would suit your plans. We would then follow up with more formal steps.

Thank you very much in advance and kind regards,

Nina
