Bogusław Cyganek received his M.Sc. degree in electronics in 1993, and then M.Sc. in computer science in 1996, from the AGH University of Science and Technology, Krakow, Poland. He obtained his Ph.D. degree cum laude in 2001 with a thesis on correlation of stereo images, D.Sc. degree in 2011 with a thesis on methods and algorithms of object recognition in digital images, and professorship in 2017.

During the recent years Prof. Bogusław Cyganek cooperated with many scientific and industrial partners such as Glasgow University Scotland UK, DLR Germany, Surrey University UK, as well as Wroclaw University of Science and Technology, Poland. Currently he is a researcher and lecturer at the Department of Electronics, AGH University of Science and Technology, Poland. His research interests include computer vision, pattern recognition, as well as development of programmable devices and embedded systems. He is an author or a co-author of over a hundred of journal and conference papers, as well as books with the latest "Object Detection and Recognition in Digital Images: Theory and Practice" published by Wiley in 2013. Prof. Cyganek is a member of the IEEE, IAPR and SPIE.
